

DESCRIPTION

PFF85-424

FRONT SUBFRAME TO CHASSIS BUSH

INSTALLATION GUIDE

Contents (parts per pack):

2 x bushes (2 x A, 2 x B parts)

2 x aluminium sleeves

1 x grease

Please read the complete fitting instructions and check package components before fitment.

These fitting instructions are to be used as a guide and in conjunction with workshop manual.

It is recommended that:

- all work to be carried out by a licensed technician;
- all safety precautions adhered to;
- wheel alignment to be checked and adjusted as required after any suspension work.

All fasteners must be tensioned to manufacturer's torque settings.

Fitting Instructions:

- Remove the original bush from the front subframe. 1.
- Clean any dirt/rush and sharp edges from where the bush fits into the subframe. 2.
- 3. The A bush (has the recess in the larger diameter) fits into the subframe from the top, between the chassis and subframe. The B bush fits in from underneath the subframe.
- Apply some of the supplied grease 4. to the bore of the bush and beneath the head of the sleeve. Push the sleeve into the bush, from the A part, down wards so the head of the sleeve fits into the recess on the upper bush.
- 5. Refit the subframe back upto the chassis using the original bolt and large washer.
