

INSTALLATION INSTRUCTIONS

Audi RS6 Type C8 | 2019 →

EXHAUST SYSTEM:
AXLE-BACK, FRONT SILENCER

SYMBOLS

The following symbols are used throughout these installation instructions:

TOOLS AND PROTECTIVE EQUIPMENT REQUIRED

TIGHTENING TORQUE

LUBRICATION

HAND TIGHTEN

INSTALLATION TIP

CAUTION OR IMPORTANT

MOVEMENT ARROW

INDICATOR ARROW

CERAMIC PASTE

For lubrication and corrosion protection on screws, bolts, fits and pins. Free of standard and heavy metals, prevents sticking and seizing, neutral to all known sealing materials, non toxic, up to +1400°C heat resistant, short term up to +1600°C, prevents wear and tear.

TOOLS AND EQUIPMENT

Use appropriate safety equipment like eye protection and mechanic gloves! Use appropriate and working tools for mounting and dismounting of the exhaust system.

We congratulate you on buying a product from REMUS and thank you for your trust. We are always striving to offer the very best product for your vehicle through continuous innovation processes and usage of the latest technologies.

READ THIS

Please read this entire installation manual carefully prior to installing and using the REMUS exhaust system.

REMUS exhaust system should only be installed by persons skilled in car/motorcycle exhaust system installation and performance. The instructions provided in this manual should be followed to ensure proper installation and safe use of the REMUS exhaust system. REMUS and/or its partners shall not be held liable for any damage or personal injury (including direct, indirect, or consequential damage) sustained as a result of improper installation of the REMUS exhaust system or its use and maintenance contrary to the instructions and warnings contained herein.

If you have any questions regarding the installation and/or proper use of the REMUS exhaust system or this manual, please contact your local REMUS partner.

For more information on the REMUS exhaust systems, see the official REMUS website at: <http://www.remus.eu>

GENERAL INFORMATION

Your safety is our number one priority. Please drive your car/motorcycle responsibly, safely and always obey local traffic rules.

All statements made with regard to the exhaust system's compliance are made in respect of the exhaust system "as is". Any modifications of the REMUS exhaust system or its improper installation, use or maintenance that is not in accordance with this Installation manual, may result in severe damage to the exhaust system and/ or engine, as well as personal injury, and may affect the exhaust system's compliance with the legal requirements, such as exhaust system's air and/ or noise emissions (as an example, the car/motorcycle may not be suitable for use on public roads any longer), as well as warranty coverage.

The exhaust system may only be used in accordance with relevant laws and regulations, including state and federal, where applicable.

Damage caused by improper installation, use and maintenance of the REMUS exhaust system is not covered by the REMUS warranty. Please refer to the enclosed warranty with regard to the terms of our warranty.

Technical specifications of REMUS exhaust systems and related products are subject to change without notice. RIGHTS & NOTES

RIGHTS & NOTES

COPYRIGHT, OTHER RIGHTS NOTICE AND GENERAL NOTES

The REMUS trademark, including corporate logos and emblems, are subject to copyright as well as trademark rights of REMUS, its licensors, or third persons authorizing REMUS to use them. Any reproduction, technical or other manipulation, translation, or other use of the copyright and/or trademark rights contained herein is prohibited without the explicit prior written consent of REMUS.

The same especially applies to the entire contents of this manual and/or any of its parts, including but not limited to technical specifications, instructions, graphs, photographs, and so on included in this manual.

The photographs and other illustrations in this manual are symbolic and are intended to help represent individual steps for proper installation and use, as well as for a general overview.

The actual component parts of the REMUS exhaust system may not entirely correspond to the photographs and other illustrations.

REMUS takes all copyright and other rights infringement cases under serious consideration. If you have any reason to believe that your exhaust system is not an original REMUS product, please contact our local partners or REMUS at office@remus.at

SAFETY WARNINGS

IMPORTANT SAFETY WARNINGS, PLEASE READ CAREFULLY

The car/motorcycle should be in the off position throughout the whole dismantling and mounting process, as well as any other work done on the exhaust system!

Before dismantling the exhaust system, lock the car/motorcycle and remove the key from the vehicle to avoid electrical errors in the control units!

For proper dismantling and mounting of the exhaust system, it is recommended to use an certificated and testet lifting device.

The exhaust system can get extremely hot during and after it is used. Allow the exhaust and engine to cool down before touching it and beginning installation.

Make sure that you have all the parts necessary for the installation of your new REMUS exhaust system, according to the parts list in this manual. If any of the parts are missing, please do not proceed with uninstalling your stock exhaust system/installing the REMUS exhaust system and contact the retailer you bought the REMUS exhaust system from.

CAUTION: make sure not to injure yourself or damage any part of the vehicle during dismantling and mounting of the exhaust systems!

POS	PCS	PACKING CONTENT
A	2	sport exhaust
B	2	connection tube
C	1	front silencer
D	2	body bracket
E	3	clamp Ø80 mm
F	1	ball clamp Ø76 mm
G	1	rubber cage
H	2	nut M8
I	2	washer M8
J	2	snap ring M8
K	1	copper paste
L	1	pair of gloves

REMOVAL

OF STOCK EXHAUST SYSTEM:

The process of uninstalling the original exhaust system may vary depending on the existing exhaust system. Please follow the original exhaust system manufacturer's instructions for uninstalling the original exhaust system.

If you for any reason decide otherwise, please note that any information provided in this respect herein should be considered as general information provided for your convenience only.

REMUS shall not assume any liability or responsibility with regard to uninstalling your existing exhaust system, warranty coverage of such exhaust system or vehicle or their further fitness for use.

REMOVAL OF STOCK EXHAUST SYSTEM:

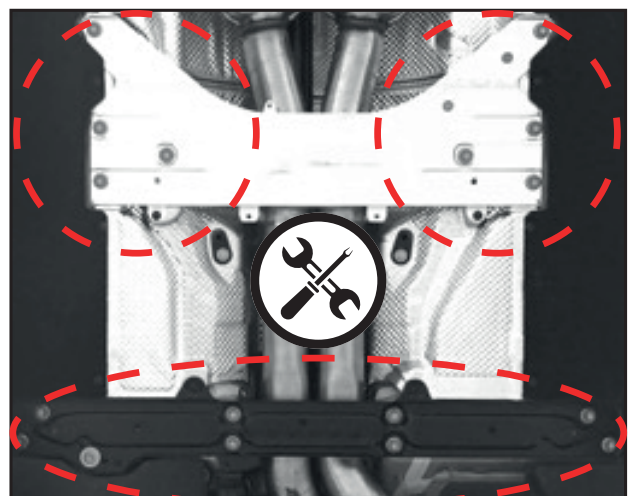

Put the vehicle onto a car lift.

⚠ CAUTION: ensure that the car is lifted safely and properly in order to avoid the risk of vehicle damage, injury, or even death!

Dismount the cross struts as well as the diagonal strut (1).

⚠ CAUTION: Before dismantling the second diagonal strut (2), you must remount the expansion screw (3) of the first diagonal strut to stabilize the rear axle!

Disconnect the actuators on both sides.

Loosen the clamp connections between front and middle silencer.

Unhook and unscrew the rubber hangers and remove the stock exhaust system.

 **For easier dismounting, lubricate the original rubber brackets (WD40®).**

Remount the diagonal struts, be sure to use new expansions screws!

 **It's necessary to buy new expansion screws, Audi original part number N 107 486 01.**

Remove the rubber brackets and unscrew the actuators on both sides of the rear exhaust.

 **For easier dismantling, lubricate the original rubber brackets (WD40®).**

INSTALLATION OF THE REMUS EXHAUST SYSTEM

Mount the actuators onto the REMUS sport exhausts.

 Pay attention that the position of the actuators must match the position of the flaps!

Mount the supplied additional brackets on the REMUS sport exhausts.

**Mount the supplied rubber cage onto the middle silencers rubber support.
Mount the rubber hanger onto the REMUS middle silencer.**

 **For easier mounting, lubricate the rubber hanger (WD40®).**

Mount the REMUS front silencer onto the standard tube. Attach the rubber support to the front silencer as well as the body bracket. Install the bracket, together with the cross strut, onto the underbody.

 **Only hand tighten the clamps!**

**Mount the REMUS connection tubes onto the REMUS front silencer.
Align the connection tubes.**

 **Only hand tighten the clamps!**

Install the REMUS sport exhausts on the connection tubes. Remount the rubber supports on the sport exhausts. Also remount them on the fixation points of the car body and on the previously mounted additional brackets.

Align the exhaust system and tighten all connections.

Mount and align the REMUS tailpipes onto the REMUS sport exhausts.

Replace all dismantled original parts in the reverse order from the order in which they were removed. Check vehicle manufacturer manual for tightening torques.

FINAL STEPS

IMPORTANT: reinstall the dismantled or partially removed stock parts (wheel arches, bumper etc.); check vehicle manufacturer manual for tightening torques.

IMPORTANT: make sure all the nuts and bolts are sufficiently tightened. In case the exhaust system touches the cowling or other parts, repeat the adjustment of the exhaust system or contact your authorized dealer.

IMPORTANT: clean all exhaust components before the first start of the engine or the stains will burn onto the surfaces!

TROUBLESHOOTING

Problem	Possible cause	Solution
Exhaust gas is leaking out of the exhaust system	loosened clamp	tighten all connections to specified torque
	connection is not completely joined	loosen the connection and tap it into place, tighten the connection to specified torque
Valve is not working / moving	Valve is mechanical stuck	Remove the actuator and try to move the valve by hand. Use spray lubricant (WD-40® or equivalent) to make the valve working again.
	Valve is not working correct	Make sure the actuator is powered correctly. Make sure the actuator is mounted properly onto the valve and the valve spins correctly.
Exhaust system rattles / doesn't fit properly	Exhaust System is not mounted correct	loosen all connections again and readjust/ align the whole system once more

MAINTENANCE

STAINLESS STEEL PARTS:

Clean stainless steel components with soft cloth sprayed with contact cleaner, then wipe with soft and dry cloth.

CARBON PARTS:

Clean carbon fiber exhaust components with soft and dry cloth.

TITANIUM PARTS:

Clean the titanium exhaust components with a multi-purpose spray lubricant (WD-40® or equivalent).

A change in the color of the exhaust system is normal due to high temperatures. Periodically make sure all the bolts and springs are sufficiently tight.

IT IS NORMAL FOR WHITE SMOKE TO COME OUT OF THE MUFFLER AT FIRST OPERATION.

CAUTION: DO NOT STAND BEHIND THE MUFFLER AT ANY TIME.

CAUTION: DO NOT USE AUTOMOTIVE WHEEL CLEANERS OR ANY CLEANING PRODUCTS WHICH CONTAIN ACIDIC ADDITIVES TO CLEAN THE REMUS EXHAUST SYSTEMS.
